

BUS BRIDGE

SunRail has activated a bus bridge to efficiently move riders during significant disruptions in service. Buses will transport SunRail passengers to and from affected SunRail stations until train service is fully restored. We apologize for the inconvenience and will do everything possible to deliver you to your station as quickly and as comfortably as possible.

WHAT YOU NEED TO KNOW

During a bus bridge, SunRail Riders will board specially-marked SunRail buses such as Lynx or Votran.

Buses will be marked northbound or southbound depending on your desired route and will deliver you at no cost to your SunRail station. Buses will make all SunRail station stops along this route.

BUS PICK UP/DROP OFF LOCATIONS

Bus pick up and drop off locations are placed as close as possible to the station. Click on your station below for details.
