**SunRail parking lot expansion construction will affect entry into the
DeBary Station Parking Lot**
Motorists need to be alert for changes

DeBary - Beginning the week of **April 3**, the northernmost entrance along U.S. 17/92 to the DeBary SunRail parking lot is closing for approximately two-to-three weeks for reconstruction. The entrance is currently a right turn lane (only) into the lot from southbound U.S. 17/92, just south of Fort Florida Road. When the project is completed, the lane will offer access both in and out of the lot.

SunRail customers will still have a couple options during this closure:

- Use the second entrance to the SunRail lot, just to the south along U.S. 17/92.
- Make a right turn onto Fort Florida Road, and then turn left into the entrance of the SunRail lot.

In addition, intermittent closures of the outside lane on southbound U.S. 17/92 are scheduled daily from 9 a.m.-to-3 p.m. to allow for construction. The sidewalk along the southbound side of the roadway is also closing while work occurs. The work is part of \$1.7 million project to nearly double the size of the DeBary SunRail lot, adding 212 parking spaces, as well as increasing access to-and-from parking areas. The project is nearing completion and is expected to wrap up in May.

Please note bad weather or other unexpected conditions may affect the schedule. Construction concerns/questions? Please contact Steve Olson, Regional Communications Manager, Florida Department of Transportation; steve.olson@dot.state.fl.us or 386-943-5479.

For more information about SunRail routes, schedules, and fares, please visit us at www.sunrail.com. SunRail urges motorists to be careful around trains, railroad crossings and construction. Be smart. Be safe.
